LiveStockDatabase

The LiveStock Database Program

The LiveStock Program opens to the Main Menu. The program is completely menu driven and from here the user can navigate to all of the other forms in the program. The following pages provide information and details about each.

Selecting LiveStock by Owner

Owner Information

Select Owner: **Emmons, Boo** Owner #: **9**

Last Name	First Name	Qty
Emmons	Boo	

Owner Address: 9603 Mira Myrtis Road, Rodessa, Louisiana

Home Phone: (318) 223-4397 Cell Phone: (318) 555-5555

Additional Owner Information

Record: 1 of 4 No Filter Search

Close

Left click on button "Select LiveStock by Owner".

Left click on Select Owner dropdown box and type the first few letters of a known Owner or click the dropdown arrow and scroll to the selection you want to view.

Selecting LiveStock by Grid

Grid: 2 Select Stock Type: GOATS

LiveStock By Grid: 1, 2, 3, 4, 5, 6, 7, 8

Stock Type	Color	Qty	Stock Address	Grid	Last Updated
GOATS		0	11574 Mosquito Bend Road	2	
GOATS		0	End of Whiskey Road	2	9/14/2007
GOATS		0	10,000 block of Adger Road	2	
GOATS		0	Hwy 1 South of Caddo Lake East side of road	2	
GOATS		0	14000 Block of Hwy 538	2	5/13/2008

Close

Most agencies have some way of dividing their jurisdiction up into smaller sections. These may be called Areas, Grids, Beats or something else. In our example we are using Grid, but this can be changed by us for each agency using the program.

Left click on "Select LiveStock by Grid" button.

In the Grid dropdown select the Grid Number. The form will change and display the selected Grid Number.

In the Select Stock Type select the type of livestock to view. The form will change and display the selected Stock Type.

Adding A New Owner

Cancel and Close Save and Close

Left click on the "Add New Owner" button in the Main Menu. The New Owner Number and the New Stock Number are automatically entered from the Number table. The New Owner Information form has two sections, the top for the owner information and below that a section to enter one stock type. After saving the entry, additional stock types can be entered by using the Edit Owner Information button on the Main Menu.

In the New Owner Information form, go to the "Last Name" box. Enter data in all of the known fields for the owner information. Any unknown information can be left blank and entered on the Edit Existing Owner and Stock form later.

New Owner Number: 604		New Stock Number: 787		
Last Name	First Name	Suffix	MNI	Last Updated:
			604	
Owner Address				
Home Phone	Cell Phone	Work Phone	Alternate Phone	Pager
Additional Owner Information				
Stock Type	Color	Qty	Stock Address	Grid
Stock Number	Live Stock Remarks			Last Updated
		0		
787				
Cancel and Close		Save and Close		

Note that the Last Updated date is automatically filled in. The Last Updated date will change each time a change is made to the information.

When finished, click the "Save and Close" button. To close without saving, click on the "Cancel and Close" button.

Click on the “Print LiveStock Report” button. The report is displayed in Print Preview form so you can view before actually sending it to a printer.

The LiveStock Report prints a separate page for each owner with each stock type below the owner information.

Table Maintenance

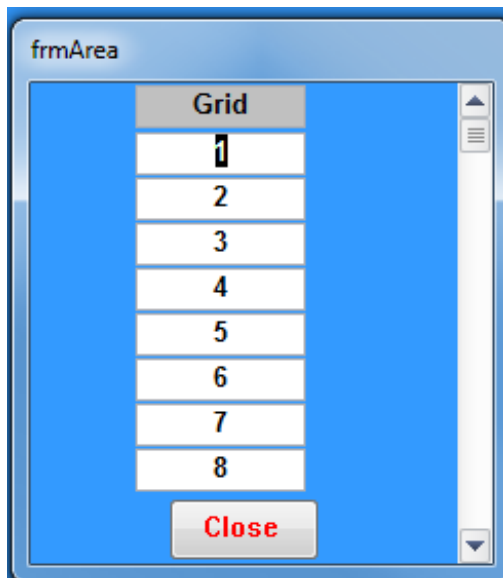

The Geographic Areas correspond to your Grid. The LiveStock Program comes with 3 Grid numbers already inserted and you will need to insert numbers for as many as you have Grids.

The Stock Category Table comes with several livestock types already inserted as examples for you. You can update this table as often needed when you have new livestock types to enter.

The Next Numbers form displays the Next Number that will be used for a Live Stock Number, a Master Owner Number Index and for a Software Problem Report. The Number IDs and Descriptions cannot be edited, only the Next Number. This form is presented in the event that you want to start with a different beginning number.

Samples of these are on the next page.

Software Problem Reporting

The image shows a 'Problem Report' form with a blue background. At the top, there is a title box containing the text 'Problem Report'. Below this, the form contains several input fields and controls:

- Report Number:** A text box containing the number '24'.
- Company Name:** An empty text box.
- Address Line 1:** An empty text box.
- Address Line 2:** An empty text box.
- City:** An empty text box.
- ST:** A dropdown menu.
- Zip Code:** An empty text box.
- Contact Person:** An empty text box.
- Date:** An empty text box.
- Version:** A dropdown menu.
- Data Path (drive/folder):** An empty text box.
- Error Code:** An empty text box.
- Error Message:** An empty text box.
- Form:** An empty text box.
- When Did Error Occur:** An empty text box.
- Can Duplicate:** A dropdown menu with 'No' selected.
- Customized:** A dropdown menu with 'No' selected.
- First Time Error:** A dropdown menu with 'No' selected.
- Steps to Duplicate:** A large empty text area.
- Comments:** A large empty text area.

At the bottom of the form, there is a navigation bar with the following elements:

- Record: 1 of 1
- No Filter
- Search

Below the navigation bar, there are four buttons: 'New Report', 'Preview Report', 'EMail Report', and 'Close'.

The Problem Report form provides a means to describe and report to us any problems that are encountered while using the program. It can also be used to describe change recommendations (CR) desired in the program for a future version release. If this is a CR, type the request in the Comments box and mark it as CR.

"Thank you so much. We LOVE the program.", Melody Holmes,
Communications Supervisor, DeSoto Parish Sheriff's Office, Mansfield,
LA.

Our Mission Statement

Our mission is simple. We want to give our customers the database software they need to do their jobs with more accuracy and efficiency, at a price that is reasonable and fair to them and to us, with the continued care and support they deserve after the sale.

The LiveStock Database program is available in a stand-alone or client-server configuration. The client frontend is written in Microsoft Access and the server backend is available in either Microsoft Access .mdb* or SQL Server database format. The client can be installed on multiple computers. Also included is one copy of Microsoft Access runtime software that can be installed on multiple computers. Complete pricing is provided below.

One Server and unlimited Client Licenses.....	\$1,500
1 copy of LiveStock.mdb database software*	
1 copy of client software which can be installed on multiple clients	
1 copy of client Supervisor software	
Access runtime client which can be installed on multiple computers	
Minor customizations (label changes) to forms if needed	
Email and call back support for installation and problem resolution during warranty	
Warranty period – 30 days.	
Optional 12 month warranty which includes continued support and software updates	\$250
Copies of all software upgrades and fixes provided for one year	
Email and call back support for one year.	
Optional custom reports on request	\$250
Optional on-site training per day plus travel.....	\$800

For additional information or to find out how you can get the Livestock Database for your agency, email arthur.meacham@go-pscs.com.

* LiveStock.mdb requires Microsoft Access 2003 or later.
